Mr. Barack Obama
Mr. Eric Holder
Ms. Janet Napolitano
Mr. Tim Gheitner

Ref: Petition 08-1230 ~ Enemies in War,

Fellow Americans,

Mr. Gheitner, how is it that our Treasury is bankrupt, but you grant criminals who stole from the Treasury, immunity from prosecution? Ms. Napolitano, why is it your all encompassing "Lexicon" of *non-Islamic domestic* extremists assigns terrorist overtones to almost every segment of our society, but conveniently omits a category for those federal employees who criminally breach their allegiance to this Nation. Just like those treasonous officials in Homeland Security today (Customs & Border Protection) who instead of protecting our borders pre-September 11th, subjected this Nation to untold terror when they chose to purloin the Treasury instead of protecting said borders. Mr. Holder, where did you read in our Constitution that you are afforded arbitrary and capricious discretion as to which violations of law you will prosecute and which ones you won't; perpetrated by your own prosecutors no less? Mr. Obama, how on God's green earth can you expect to maintain any credibility whatsoever by permitting us to be governed by criminals? And no, I'm not talking about the theoretical or inane. I'm talking about those Justice, Treasury & Homeland Security officials who perpetrated those infamous crimes so clearly substantiated in the indictment, Enemies in War. (www.EnemiesinWar.com) That would be the indictment documented in your possession sir.

Solicitor General Elena Kagan, who purports to represent the interest of us, the United States, has essentially stipulated to these crimes by waiving *our* right to respond to the Supreme Court Petition (08-1230) in this matter. She states "The Government hereby waives its right to file a response to the petition in this case." *The Government?* How autonomous! Just like her predecessor, she perpetuates a *wall of silence*, brought to protect the criminals, as opposed to us. So be it. If you supposed government officials will not enforce the rule of law, then obviously there is no law.

History and Constitution seem to be lost on those of you in *The Government* today, so let me lay it out for you. The founders of the United States not only declared their independence, but articulated for all time that in order to preserve liberty, it is a citizen's right and duty, to throw off despotic government; in this case, outright criminal government. I haven't a clue what the hell you people think you're doing by withholding our liberties and abusing our powers, but continue to protect these criminals and I will be forced to withhold my consent to whatever you call this unaccountable cabal. Call it what you will, but do not call it the United States government. That is an affront to all Americans and a blatant fraud.

I've expended enough years and monies trying to assert my rights and our laws in this criminal matter, so July 4th, 2009 is the deadline for you sworn officials to comply with your end of the bargain. I mean after all, you all took an oath to support and defend the United States Constitution, didn't you?

Sincerely,

Brian Kilcullen ~ Enemies in War
